## OUR 10 SERVICES

### TIER 1: FOUNDATION

- 1 Architecture Review**  
Blueprint structure, dependencies & risks.
- 2 Technical Debt Assessment**  
Quantify shortcuts & prioritize issues.
- 3 Tech Stack Evaluation**  
Assess frameworks for risk & fit.

### TIER 2: ANALYSIS

- 4 Performance Optimization**  
Identify bottlenecks, create fix roadmap.
- 5 Refactoring Roadmap**  
Improve code without halting delivery.

### TIER 3: PROCESS

- 6 Code Review Design**  
Standards & workflows for quality.
- 7 Documentation Framework**  
Tribal knowledge into searchable docs.
- 8 Unit Testing Strategy**  
Coverage analysis & testing plan.

### TIER 4: STRATEGIC

- 9 Feature Review & Planning**  
Align roadmap with capacity & risk.
- 10 Developer Onboarding**  
Cut onboarding from 6 months to 4 weeks.

## WHY SEQUENTIAL MATTERS

**85%** Implementation Success  
When services follow prerequisites

**35%** Cherry-Picked Services  
Out-of-order, ad hoc approach

Sequential services ensure recommendations work together, build on proper context, and address root causes.

## THE PROBLEM

### ■ Velocity Loss

Features take twice as long as they should.

### ■ Hidden Debt

Shortcuts compound silently into costly rewrites.

### ■ Scaling Risk

Architecture built for 10 users breaks under 10,000.

### ■ Onboarding Drain

New developers take 6 months to contribute.

## OUR APPROACH

Techsessment delivers documentation-only software quality assessments — no implementation, no retainer lock-in, no overhead. You receive a complete, actionable technical blueprint your team can execute at their own pace.

## ENGAGEMENT OPTIONS

START HERE

### Essential Package

**\$15,000**

- Services 1-3 (Foundation)
- 9 documents (~72,500 words)
- 5 weeks delivery
- 90-day support
- Start Here — All Clients

### Add-On Services

**\$5,000 / ea**

- Services 4-10, in order
- Must follow prerequisites
- Build your own path
- \$5K per service

BEST VALUE

### Complete Package

**\$45,000**

- All 10 services included
- 30+ docs (~225,000 words)
- 12 weeks | 120-day support
- Roadmap + Exec Summary
- Save \$5,000 vs. à la carte

## WHAT YOU RECEIVE

- ✓ Professional Markdown docs — Confluence, GitHub, or Notion-ready
- ✓ Architecture diagrams (Mermaid) visualizing your entire system
- ✓ Prioritized roadmaps with effort estimates and business impact ratings
- ✓ Code examples showing how to implement every recommendation
- ✓ Risk severity ratings — know what to fix first
